Basketball Season 2021-2022

We are very excited to say basketball season is underway. Middle school basketball has started practicing and high school basketball will be starting up on the 22nd.

Basketball schedules will be posted to the Stearns Facebook page and website. Please remember that these schedules are forever changing!

With that being said, there are protocols in place for this season.

Stearns has made the decision to have universal masking. All players and spectators must wear a mask at all times.

We are allowing home and away fans in our facilities.

The games will still be streamed on NFHS. For every subscription purchased from NFHS, the school gets a kickback! This has been a great streaming platform to allow family and friends near and far to watch the kids play. The cost is $10.99/month or $69.99/annually. We will have the pleasures of having Mrs. Hayes commentate again too!!

Please be watching our Facebook page and website for more information about surrounding schools that we are playing and their guidelines. As soon as we have all the information, we will post a spreadsheet of what other schools are allowing.

The cost of admission for high school games are $4 for adults; $2 for students/senior citizens; $10 for a family.

The cost of admission for middle school games are $2 for adults; $1 for students/senior citizens.

The concession stand will be open however, no food/drinks are allowed in the gym. There will be an area set up with tables in the hallway of the lobby and in the classroom located beside the concession stand. We ask that you social distance while eating. We also ask that you clean up after yourself.

Boosters is in need of volunteers for the concession stand. There will be a link through sigup.com posted on the Stearns page to sign up for games. We are hoping this will make it easier for parents to sign up for games they are available to work. This program is run strictly by volunteers and without your help this program cannot support itself. Thank you to all that volunteer!
