

POLICY: STUDENT EXCLUSION FROM FIELD TRIPS

A student may be excluded from a field trip if the student's behavior could reasonably be expected to present a danger to himself/herself or others or to cause excessive disruption to the educational purposes of the trip.

The Principal will, prior to the field trip, notify the parent and review with the parent the reasons for the decision. The Principal will notify the Superintendent's Office, reporting the student's name and reasons for excusing the student from the field trip.
