

**REMOVAL OF STUDENTS WITH DISABILITIES**

These procedures shall govern disciplinary removals of students with disabilities from their regular school program. These procedures shall be interpreted in a manner consistent with state and federal special education laws and regulations.

1. School administrators may suspend students with disabilities for up to 10 cumulative school days in the school year under the same terms and conditions as students without disabilities are suspended, subject to the limitations set forth below.
  - A. In the event that a disabled student's IEP specifically lists a school response other than a suspension that must be followed for a particular type of misconduct, the school administrator shall follow the requirements of the IEP in responding to that misbehavior.
  - B. When calculating the 10 cumulative school day total, school administrators shall include school days spent in an in-school suspension or removal, unless during that removal the child continued to have access to the general curriculum, to the special education services in his or her IEP, and also continued to participate with nondisabled children to the extent he or she would have in the student's regular program.
  - C. Portions of a school day that a child has been suspended would be included in determining whether the child has been removed for more than 10 cumulative school days.
2. In the event that a school administrator must remove a disabled student from his or her school program for more than 10 cumulative school days in the school year, the administrator shall ensure that the following steps are followed:
  - A. After consulting with the child's special education teacher, the school administrator shall arrange for the child to receive an appropriate level of educational services during the removal in question so as to ensure that the student is able to continue to progress in the general curriculum and appropriately advance toward the goals and objectives listed in the student's IEP during that removal.
  - B. The administrator shall contact the District's special education office to arrange for a meeting of the child's PET, which should meet within 10

business days of commencing the removal in excess of 10 cumulative school days in the school year.

- C. At the PET meeting referenced above, the PET shall undertake all the responsibilities established by state and federal special education laws, including reviewing or ordering as appropriate a functional behavior assessment and a behavior intervention plan. The Team may also undertake a manifestation determination of the behaviors of concern, and must undertake that manifestation determination if the student has been removed with sufficient frequency to constitute a “change of placement” as that term is defined by state and federal law.
  - D. Nothing in these procedures shall prevent the PET from undertaking functional behavior assessments, manifestation determinations, or the development of behavior intervention plans at earlier points in time, as determined appropriate by the PET.
3. Should school officials believe that the student should remain out of his or her regular program for a sufficient length of time so as to be a “change of placement” under state and federal law, school officials shall schedule a PET meeting to consider that removal. At that meeting, the following things must occur:
- A. The Team shall review or order, as appropriate, a functional behavior assessment and shall review or order, as appropriate, a behavior intervention plan for the student. The Team shall also undertake a manifestation determination of the behaviors prompting the need for the extended removal time.
  - B. If the PET chooses to remove the student from his or her regular program for a period of time that would be a change of placement, the Team shall decide upon the appropriate services for the student to receive during that removal. Those services must be calculated to ensure that the student is able to continue to progress in the general curriculum and appropriately advance toward the goals and objectives listed in the student’s IEP during that removal.
  - C. When such a removal is ordered by the PET, the family shall receive the special education statement of procedural rights as part of that decision. If possible, the chairperson of the PET meeting should also attempt to inform the child’s parents at the meeting that if they do not believe the service package ordered by the PET is appropriate, then the parents may request a due process hearing challenging the appropriateness of those services.
4. For purposes of these procedures, a “change of placement” shall be any removal from the student’s regular school program that is for more than 10

consecutive school days in a row in a school year, or any series of removals that constitute a pattern because they cumulate to more than 10 school days in a school year and are considered a change of placement because of factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another.

5. In any situation where the PET determines that misconduct is not a manifestation of the student's disability, then the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner as they would be applied to students without disabilities, up to and including possible expulsion of the student in question. During any permissible disciplinary removal in excess of 10 cumulative school days in the school year, including expulsions, the school shall provide that student with services sufficient to ensure that the student is able to continue to progress in the general curriculum and appropriately advance toward the goals and objectives listed in the student's IEP during that removal. The PET shall determine the services that meet that standard for removals sufficiently long as to constitute a change of placement.
6. Following any disciplinary removal in excess of 10 cumulative school days in the school year, the PET should meet to review the student's most recent functional behavior assessment, or if one has not been done, to order that such an assessment occur, as appropriate. Following the completion and/or review of the functional behavior assessment, the Team shall develop and/or review as necessary the behavior intervention plan, and order changes in such a plan if appropriate to address the behaviors of concern.
7. In those circumstances where a student brings a weapon to school, to a school function, or on school transportation, or where a student possesses, uses, sells or attempts to sell illegal drugs at school, a school function, or on school transportation, school officials may place that student out of school for up to 45 days, shall provide educational services for the student, and shall schedule a PET meeting to occur within 10 business days of the removal. At that PET meeting, the Team shall undertake all necessary actions discussed in these procedures for responding to removals that constitute a change of placement for the child. Determinations regarding what should happen with the child after the 45-day removal shall also be made by the PET, consistent with these procedures and state and federal law.
